

## 15HP Petrol Wood Chipper/Shredder/Mulcher Flail Configuration

The following pictures show the configuration of the flail hammers in the lower chipping chamber for the 15HP petrol wood chipper. This applies to models TP15ESchip and TP15chip, as well as the TP7chip, from which these photos were taken. You can find the component parts of flail kits, as well as a complete replacement lower chamber on the following links:

- [1 x complete replacement flail hammer kit \(4 x flail hammers, 1 x hammer axis, 1 x roll pin and 5 x spacers\)](#)
- [4 x flail hammers](#)
- [5 x spacers](#)
- [1 x hammer axis](#)
- [1 x roll pin](#)
- [Complete lower chipping chamber – includes 4 x sets of the complete replacement flail hammer kits](#)

It is important to note that the sets of five spacers include four different sizes – the approximate dimensions of these can be found below:

- 38.30mm (two quantity)
- 21.25mm (one quantity)
- 17.80mm (one quantity)
- 8.90mm (one quantity)

You can also [click here to find a video showing how to replace the flail hammers on this chipper.](#)
